Betsy Riley grew up in Bath and graduated from Revere High School. She attended Valparaiso University and received a Bachelor in Arts with a degree in Spanish and Sociology. Following graduation, she moved to Chicago and worked at Smith, Bucklin and Associates working in non-profit association management. Betsy also worked as an independent contractor doing freelance meeting and event planning.

After reconnecting with her husband Mike, who is also a Revere grad, in Chicago, they moved back to Akron area to raise their family. Betsy worked as an Account Manager at Hitchcock Fleming & Associates advertising agency providing support to Goodyear's distributors until her girls were born.

While staying home to raise their girls, Betsy continues to spend much of her time volunteering. Betsy has been involved with many school volunteer jobs, as well as holding different positions within the PTA. She was involved with the 2020 Revere Local School's Vision of a Minuteman as well as the strategic planning for the Revere district's five-year plan. Betsy currently volunteers at Akron Children's Hospital in the surgery waiting room. She also loves to spend time with their family dog, Murphy, who is a certified therapy dog. They are a part of the ACH Doggie Brigade and also visit many other facilities in the area. In between her volunteer opportunities, Betsy helps by subbing in the Revere Schools.

In her free time, she enjoys cooking, traveling, reading a good book and watching their girls participate in their many extracurricular activities.
